What is the

WINDOW RESTORATION PROJECT

Our stained glass windows in the tower are falling apart. The wood on the exterior of our church is in *very poor condition* having been exposed to the elements for *117 plus years*.

The wood is no longer able to hold paint long term. Continuing to paint and patch at this point is only covering up the *real problem*. While the wood from the ground looks fine, internally we are experiencing *extreme wood rot* which could lead us to spending *2 X \$'s* to replace rather than repair.

Through generous donations and reserve funds we've raised over 60% of the total project cost and need to raise the remaining \$150,000 over the next year. These windows have *artistic* and *historic value* and should be preserved as soon as possible.

Please help us maintain the beauty of our historic church. We have provided a donation card for you to fill out with your check or money order. Any help is appreciated, no matter how big or small.
